

*Celebrating 37 years in business!*

**PUT EXPERIENCE TO WORK FOR YOU!**

Valley Staffing has spent more than 37 years building relationships with local businesses and pride ourselves on the reputation of great customer service. We are a family-owned staffing company strategically located in the South Metro with offices in Lakeville, Shakopee, Hastings and Faribault.

Our mission has always been to make the best placements possible, working not only for our clients, but for our employees as well. It's extremely important in today's employment and economic environments to ensure that proper education and coaching is completed when making a placement. Our partnership doesn't stop with a job offer. Valley Staffing is here to help advance your career and we can work with individuals to build their employment profile and experience.

Our staffing experts work very closely with our clients on developing staffing solutions to increase productivity and a safe work environment. Our unique approach to recruiting and testing is backed by thorough screening and a full guarantee of all candidates. The goal is to build long-term relationships with employers so that we can truly understand their staffing needs and become an extension of their HR department.

A high percentage of our job seekers are referrals and rehires, which speaks to the good experiences enjoyed by both the employers and employees. Though the industry and Valley Staffing have evolved over the past 37 years, our focus has never changed. The hands-on approach means that we treat our employees and clients the way we would want to be treated. We adapt with the times but stay true to who we are.

If you are seeking a change in employment or are in need of great employees, call one of our offices today!
